DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 03/17/2008 has been entered.

2. Applicants' amendment dated 02/14/2008 has been received and entered. By the amendment, claims 1-2, 4, 6, 8, 26 and 29 are now pending in the application. Claims 5, 9-25, 27, 30-40 and 42-44 stand withdrawn from consideration.

3. Claims 1-2, 4, 6, 8, 26 and 29 are allowed.

4. The following is a statement of reasons for the indication of allowable subject matter:

None of the prior art of record discloses or suggests alone or in combination that a backlight device for a liquid crystal display and a method of fabricating of the same comprising a combination of various elements/steps as claimed more specifically a plurality of white, red, green and blue light emitting diodes arranged on a common substrate that paralleled to the light-guiding plate and disposed at a rear of the housing, wherein each of the plurality of light emitting diodes has light-emitting portions disposed inside the housing and body portions disposed outside the housing such that the housing surrounds the light-emitting portions of the plurality of light emitting diodes, and wherein upper surface and one side surface of the light-emitting portions of the plurality of light emitting diodes are opposite to the housing, and other side surface of the light-emitting portions of the plurality of light emitting diodes is opposite to a light-incidence surface of the light-guiding plate as set forth in claims 1 and 26.

Art Unit: 2871

5. This application is in condition for allowance except for the following formal matters:

Claims 1 and 26 are allowable. The restriction requirement as set forth in the Office action mailed on 03/14/2005, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 5 and 27, directed to invention non-elected claims no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 9-25, 30-40 and 42-44 are stand withdrawn from consideration and need to be cancelled or taken other appropriate action.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
